DETAILED ACTION

Response to Arguments

1. In view of the Appeal Brief filed on January 10, 2005, PROSECUTION IS HEREBY REOPENED. Allowance is set forth below.

Allowable Subject Matter

2. Claims 1 and 2 are allowed.

The following is an examiner's statement of reasons for allowance: As the claims were read and interpreted in light of the specification, the prior art of record fails to specifically disclose an optically compensatory polarizer comprising, in particular, a polarizer where each of its transparent protective layers exhibit an in-plane retardation of not larger than 10 nm and a thicknesswise retardation in a range from 30 to 70 nm. According to Applicant's arguments in Appeal Brief filed January 10, 2005, "one of ordinary skill in the art would not have been motivated to combine and modify the cited reference to produce the claimed invention" (p. 8). While Applicant admits that the Michihata and Ishii reference disclose "a protective film for a polarizing element," Applicant asserts that Michihata "utilizes a cellulose ester film," rather than thickness retardation to achieve protective quality. Moreover, Applicant asserts that the Ishii reference is merely concerned with the "change" of in-plane retardation rather than the "actual value" of the retardation. As a result, Applicant's arguments are found to be

persuasive against modifying the primary Yoshimi reference. Thus, allowance is appropriate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Y. Wang whose telephone number is 571-272-2304. The examiner can normally be reached on M-F, 8 am - 4:30 pm.
